

Postdoctoral research position in seismology,  
Yonsei University, South Korea

The seismology and geophysics group of Yonsei University, South Korea invites applications for one or two postdoctoral research positions in the field of seismology. We welcome candidates from any fields of seismology including but not limited to volcano seismology, regional wave propagation, seismic source studies, seismic anisotropy, seismic attenuation, seismic discrimination of nuclear explosions, strong motions, seismic tomography, and computational seismology. The initial appointment is for one year, which can be renewable. The position will remain open until filled. Yonsei University is a premier university in Korea, located in Seoul. The salary will be commensurate with his or her experience. The start dates are negotiable. Applicants should submit a CV with research interests and the names and contact information of three referees. The application materials or inquiries should be directed to Professor Tae-Kyung Hong.

Professor Tae-Kyung Hong,  
Yonsei University, Department of Earth System Sciences,  
50 Yonsei-ro, Seodaemun-gu,  
Seoul 120-749, South Korea
